# EUROMINES SAFETY AWARDS 2024

## Innovating for a Safer Mining Future

The 1st edition Euromines Safety Awards (2023) received a lot of application projects. Encouraged by the successful reception and importance of sharing best practices, Euromines launches a second edition in 2024.

This annual award recognizes contributions by Euromines member companies towards enhancing health & safety in the European mining sector.

An independent jury, composed by experts from EU circles, assess the application projects based on the criteria of innovation, impact, practicality and financial impact.

The awards ceremony (2 October 2024) will present the winners to a diverse audience of policymakers, member companies & Euromines partner associations.

# EUROMINES SAFETY AWARDS 2024

## Eligibility and Application Period

The 2024 Euromines Safety Awards are open for submissions from all member companies of Euromines. We invite submissions from March 2024 until the end of July 2024.

## Submission Guidelines

Member companies (full or associated members and including those within membership of member associations) are invited to submit up to four projects, showcasing efforts in areas like injury prevention, safety culture, road safety, and leadership in safety. Still undecided about the kind of projects you could submit?

Check the links below in case you need some inspiration 😊:

## Evaluation criteria

### Innovation (40%)

Novelty and creativity in approach.

### Impact (30%)

Effectiveness in improving safety outcomes

### Practicality (15%)

Ease of implementation and application in mining settings

### Financial Impact (15%)

Cost-effectiveness and economic benefits

## Assessment Process

A panel of recognised experts, from EU Stakeholders, will assess each submission. The process ensures impartiality and focuses on the merit of each project.

# EUROMINES SAFETY AWARDS 2024

## **Award Ceremony and Recognition 2 October 2024 - Brussels**

Winners will be honoured on 2 October 2024 during our in-person Committee week in Brussels, where they will have the opportunity to present their projects.

Spotlight on winning projects, winners of the first 3 places will receive a promotion across Euromines channels, emphasizing our commitment to safety in mining. Additionally, every application will be promoted through Euromines' communication channels, highlighting their contributions to the mining community.

### **Promotion**

The 2024 Euromines Safety Awards will be publicized across social media ([X/Twitter](#) and [Linkedin](#) and [Euromines website](#)) to ensure maximum visibility from our member companies and member associations.

The awards ceremony will be an opportunity to network and promote your company with different stakeholders that will be present during the event.
