

EUROMINES SAFETY AWARDS 2025

Third Edition

Celebrating Excellence in Mining Safety

Euromines is excited to announce the third edition of the Euromines Safety Awards, taking place on 8 October 2025 in Brussels. The event will celebrate outstanding safety achievements, promote best practices, and raise awareness of safe working environments in Europe's mining industry.

EUROMINES SAFETY AWARDS 2025

Building on the enthusiastic participation and valuable exchanges in 2023 and 2024, Euromines is pleased to host the third edition of the Euromines Safety Awards.

This initiative celebrates the achievements of Euromines member companies, including those affiliated through national associations, while reinforcing Euromines' unwavering commitment to advancing the highest safety standards within the European mining industry.

Through the awards program, we aim to spotlight innovative safety practices, promote the sharing of best practices, and inspire continuous improvement across the industry.

By recognising these efforts, we strive to create a safer, more sustainable mining environment for all, ensuring a lasting impact on both people and the industry as a whole.

Awards 2024

ELIGIBILITY AND APPLICATION GUIDELINES

Euromines warmly invites applications from all our member companies, including those affiliated through national associations. **Each company can submit only one project per mine site.**

✓ **Application Period:** 20 January 2025 to 15 July 2025

Application Instructions:

- **Step 1:** Complete the application form (*sent via email to all members of the Euromines Health & Safety and Communication Committees*) and ensure the contact person's name is clearly highlighted.
- **Step 2:** The contact person named on the application form will receive a link to access the repository to submit project materials.
- **Step 3:** The designated contact person is required to submit a PowerPoint presentation and a video (*see the "Application Guidelines" page for additional information*).

See application guidelines on the next page

APPLICATION GUIDELINES

Application Materials:

- 1 Complete the **application form** (*sent via email to all members*).
- 2 Submit a **PowerPoint Presentation** with the following:
 - **Context of the Project:** Why was the project initiated? What problem does it aim to address?
 - **Objective:** What are the key goals of the project?
 - **Project Description:** Provide a detailed explanation of the project, expanding on its title and key elements.
 - **Evaluation:** How does the project meet each of the four evaluation criteria? (See *Evaluation Criteria* page)
 - **Conclusion:** Summarise the outcomes and overall impact of the project.
- 3 **Video (maximum 3 minutes):** The video should highlight the successful practices and outcomes of your project. While it showcases the execution and results, please note that the evaluation will focus primarily on the **technical safety aspects** presented.

APPLICATION GUIDELINES

Application tips for inspiration:

- Consider exploring existing internal campaigns within your company that have addressed similar issues. You can adapt their formats and strategies to align with the structure outlined above.
- Analysing successful examples can offer valuable insights into effective approaches, helping you refine your presentation. This might involve adjusting the campaign messaging to better meet the criteria or reimagining its visual style to complement your project's narrative.

EVALUATION CRITERIA

Each company can submit only one project per mine site, which will be assessed by a distinguished panel of European policymakers, occupational health and safety experts, and media professionals. Evaluation will be based on the following criteria:

Innovation (40%)

How does the project stand out from existing safety initiatives, and what makes it a significant innovation or advancement?

Impact (30%)

How has the project impacted the company in terms of improved safety, reduced accidents, workers involvement and increased awareness?

Practicality (15%)

How practical is the project, and how easily can it be implemented in mining operations?

Financial Impact (15%)

What is the required investment, including implementation costs, potential savings, return on investment, and overall viability?

TIMELINE

The awards ceremony will celebrate high-performing projects, providing winners (**Gold (1st place)**, **Silver (2nd place)** & **Bronze (3rd place)**) with significant exposure to various governmental, European, and international stakeholders. This event offers a prime opportunity for networking and demonstrating the tangible benefits of safety initiatives to key policymakers.

WHY PARTICIPATE?

01

Recognition: Gain widespread awareness for your commitment to safety at both national and European levels.

02

Engagement: Connect with key industry stakeholders, fostering opportunities for future collaborations.

03

Influence: Showcase proactive safety measures to policymakers, shaping industry discussions and outcomes.

04

All applications will be promoted through Euromines' communication channels, highlighting their contributions to the European mining community.

The Euromines Safety Awards is more than just a competition. It offers a platform to showcase and promote safety innovations that propel the mining industry towards a safer, more sustainable future. We encourage all our member companies to participate and eagerly anticipate celebrating your achievements in safety excellence.
